
Course of Study

A course of study is required for all classes outside of ACE.

The course of study should include the student's name and grade, the length of the class (hours) the goals for the class, how it will be taught, the curriculum used, and how they are given the grade.

Most elective classes for High School require 90 hours of instruction or participation for a semester's credit.

Below is a sample of what is required.

Student' Name: AIMEE SEXTON Grade: 10 Year: 2008-2009 Course Title: ALGEBRA 2
Course Length: 180 (hours)

Course Description: Teaching Textbooks, Algebra 2 course covers all topics introduced in a second-year based, algebra course. Chapters cover the following subjects: Solving First-Degree Equations, Simplifying First, Fractional Equations, Powers & Exponents, Roots & Irrational Numbers, Solving Second-Degree Equations, Radical Equations, Imaginary & Complex Numbers, Solving Higher-Degree Equations, First-Degree Equations with Two Variables, Second-Degree Equations with Two Variables, Equations with Three or More Variables, Working with Several Variables, Systems of Equations, and Absolute Value.

Student will complete 125 lessons and 16 tests and earn a "B" grade or better to satisfy this course.

Course Standard: Grade will be based on: 125 Lessons 40% of Final Grade 16 Tests 60% of Final Grade

Grading Scale: 90%-100% A 80%-89% B

Curriculum: A Teaching Textbook: Algebra 2/Instructional CD's Teacher's Keys Solutions CD's
